Listing of the Claims:

The following is a complete listing of all the claims in the application, with an indication of the status of each:

1 - 29. (Canceled)

- 1 30. (Currently Amended) A method for providing entity valuation data
2 for financial instruments, comprising:
3 receiving, at a reference data provider, an information data
4 stream generated from each of a given plurality of entity valuation
5 information vendors, each information data stream identifying the
6 generating entity valuation information vendor and stated monetary
7 value of at least one subject entity which is a financial instrument;
8 receiving a service arrangement data identifying an authorized
9 vendor list for each of a plurality of customers, said authorized vendor
10 list identifying entity valuation information vendors from among said
11 plurality of entity valuation information vendors to which the customer
12 has a given authorization to receive said vendor information data
13 stream;
14 storing said service arrangement data at said reference data
15 provider;
16 storing, at said reference data provider, a default rule for each of
17 said customers, said default rule based at least in part on the customer
18 stored service arrangement data, said default rule specifying an
19 algorithm for generating a Best Known Value Available (BKVA) of a
20 given subject entity;
21 generating, for at least one given subject entity, a best known
22 value data (BKV), based on a collection of all of said entity valuation
23 information vendor respective information data streams that include the
24 respective vendor stated monetary value of said subject entity;
25 forming a set *H* of all of said entity valuation information vendors
26 whose generated information data stream includes the generating
27 vendor stated monetary value of said subject entity;

28 generating for each of at least one of said customers, for said at
29 least one given subject entity, a customer-specific *BKVA*, wherein said
30 generating compares said customer authorized vendor list to said set *H*
31 and sets said customer customer-specific *BKVA* of the subject entity to
32 be said *BKV* if at least one of the vendors identified by the customer
33 authorized vendor list is within set *H*, else sets said customer
34 customer-specific *BKVA* of the subject entity in accordance with said
35 default rule stored for said customer, wherein said setting includes
36 applying said default rule algorithm to the information data stream of at
37 least one of the entity valuation information vendor identified by the
38 customer authorized vendor list, the generating of the customer-
39 specific *BKVA* being performed without knowledge of the data supplied
40 by vendors to which the customer for which the customer-specific
41 *BKVA* is generated does not subscribe; and
42 transmitting to each of at least one of said customers the
43 customer-specific *BKVA* of the subject entity;
44 while ensuring that no customer is aware of, has access to, or
45 otherwise benefits from a vendor data content unsubscribed for that
customer.

REMARKS

Claim 30 is pending in this application. As to the amendment to Claim 30, see, e.g., Applicant's specification at page 1, lines 13-15; page 4, lines 9-11 and sentence bridging pages 4-5; page 21, lines 1-7.

Claim 30 has been rejected under 35 U.S.C. 103(a) as being unpatentable over Peckover in view of Owens. The Examiner admits that Peckover "does not specifically teach an authorized vendor list." (Office action, page 5) The Examiner admits that neither reference teaches "that the user preference filter is for a plurality of customers." (Office action, pages 5-6)

Applicants respectfully traverse this obviousness rejection.

Neither reference relates to valuation of financial instruments. Examples of "financial instruments" are government securities and exotic derivatives. Applicants' specification, page 1, lines 15-16. Valuation of financial instruments is quite different from electronic commerce (Peckover) or Internet shopping (Owens), and a person of ordinary skill in the art at the time of Applicants' invention would not have the method of Applicants' Claim 30 suggested to him by Peckover and Owens.

A person of ordinary skill in the art at the time of Applicants' invention wanting to construct a system to provide entity valuation data for financial instruments would lack reason to turn to either Peckover or Owens, because it would be much more objectively logical for him to start with the existing conventional situation, namely, that historically firms have each built and maintained their own stores of Reference Data in isolation from other firms. (Applicants' specification, page 2, lines 8-9, which has the evidentiary effect of a Declaration under 37 C.F.R. 1.132.)

Another shortfall with the obviousness rejection is that the Examiner's takes the perspective of the customer and speaks in terms of whether or not the customer has expressly authorized something. In that regard, the customer perspective is the wrong perspective for Applicants' Claim 30, because Applicants' Claim 30 takes care not to leave to the customer to what

he has access, because it is the method that has to keep away from a customer off-limits information even if any given customer would be perfectly happy to see or have benefit of information that is off-limits, unsubscribed to for that customer. Neither reference teaches such a complexity much less how to deal with such a complexity.

Reconsideration and withdrawal of the obviousness rejection are respectfully sought.

In view of the foregoing, it is requested that the application be reconsidered, that claim 30 be allowed, and that the application be passed to issue.

Should the Examiner find the application to be other than in condition for allowance, the Examiner is requested to contact the undersigned at 703-787-9400 to discuss any other changes deemed necessary in a telephonic or personal interview.

If an extension of time is required for this response to be considered as being timely filed, a conditional petition is hereby made for such extension of time. Please charge any deficiencies in fees and credit any overpayment of fees to Deposit Account 50-0510 (HAM-Yorktown).

Respectfully submitted,
